Work Experience

Software Engineer   *August 2021 to Present*
MyKids Venture Private Limited (BeingTheParent.com) , Bengaluru

A parenting company which provides one stop solution like blogs, nearby services and marketplace

- As a leader and backend developer(NodeJs) of a team, I successfully developed a revenue model product(**Brandlabs**) that significantly impacted the organization's financial performance.
- Our collaborative efforts resulted in a revenue model that was both innovative and effective, generating substantial profits for the company. Through my contributions to this project, I demonstrated strong analytical skills, creative thinking, and the ability to work well with others towards a common goal.
- I successfully conducted web scraping to collect data from all metro cities for a **ThekidsLocal** product. This involved gathering information on various aspects, such as local schools, tuition classes, events, and activities that are suitable for parents.
- I created MVP for organizations to showcase their product(**TheKid.co.in**) to investor,Tech I used wordpress (Buddypress and BuddyBoss Plugin) . Through my expertise in MVP development and my ability to understand customer needs, I have delivered products that meet and exceed expectations.
- Designed some inner pages of **BeingTheParent.com**.
- As a web developer specializing in creating websites, developed some doctors website using wordpress (**1**)(**2**).

Web Developer Intern   *June 2020 to August 2020*
Regex Software Services (Website)

A B2B Company which provides services to companies like software development, web development etc.
- A gym portal has been developed here using PHP and Razorpay for users to pay money and plan diets. This portal provides a platform for gym enthusiasts to manage their fitness routines and access various gym-related services

Founder & Developer   *October 2021 to Present*
Fightage Private Limited(Multigrad.in) (Website)

An education portal where students can connect with his circle and access content according to his profile,following and interest.

- I started from a blogging site (TheBlogs.in) where I written 500+ blogs, got 50k+ traffic monthly in just two we monetised our website and earned $158.
- After that we found a loop in education we conducted a small survey got real stats (*Image*), so we decied to convert your idea into product so we developed (Multigrad App) for students.
- Also we created business model, affordable management system where campuses can digitalise themselve (**Portal**).
- Currently we have 10+ active members, 5000+ registered students, 11 active campsues.

Education

🎓 **B.Tech (Computer Science & Engineering)**   *August 2017 to August 2021*
Bundelkhand University, Jhansi (Uttar Pradesh)

- Developed a travel planner application that provides users with the shortest path and other travel-related information, demonstrating strong programming and problem-solving skills.
- Designed and developed a **web portal** for computer science students that provides access to study materials, resources, and a platform to collaborate with peers, showcasing skills in web development and project management.

Highschool & Intermediate   *August 2015 to August 2017*
Hindu Vidhalay Inter College, Etawah(Uttar Pradesh)

Achievements

- Achieved **3rd rank in Smart India Hackathon** (SIH), a national-level hackathon competition, showcasing skills in problem-solving and innovative thinking.
- Secured a worldwide rank of **3619th in HashCode**, a programming competition organized by Google, demonstrating proficiency in coding and algorithmic problem-solving.
- Secured 3rd position in the science fair competition in 2016, (**Youtube**).
- Achieved 1st position in the science fair competition in 2017, demonstrating the ability to continuously improve and excel in academic and extracurricular activities.
- Got 3rd Rank in Airtel IQ + Whatsapp Hackathon **(Linkedin) (TimeOfIndia)**

Hobbies

- I enjoy reading books about business and entrepreneurship to gain insights and knowledge about successful strategies.
- Like to listen 90s old songs and
- Traveling is another hobby of mine, as I enjoy exploring new places, cultures, and experiences.
